BEST AI TO SEARCH?

FROM THE NEWSLETTER**:** How to search with AI. (hint: not with ChatGPT)

---

1. Breaking news synthesis

Prompt: “Summarize what happened in the last 72 hours about the Sora 2 release. Use at least 5 unique sources. Show timestamps, contradictions, and cite each source.”

Results for each AI: ChatGPT - Perplexity - DeepSeek - Kimi - Gemini - Claude - Grok.

The winner for this specific query: DeepSeek, concise, and it has everything I needed.

2. Person dossier (OSINT-light)

“Build a current public profile of [Ruben Hassid]. Include employer, verified socials, 3 notable works, and safe contact paths. Cite every item with working links.”

Results for each AI: ChatGPT - Perplexity - DeepSeek - Kimi - Gemini - Claude - Grok.

The winner for this specific query: Perplexity. I can’t believe the level of depth.

3. High-intent product choice

“Pick the best [PRODUCT: ping pong racket, BUDGET: under $300, REGION: available in Tel aviv] today. Give 3 options with pros/cons, live prices, warranty notes, and 5 owner reviews linked.”

Results for each AI: ChatGPT - Perplexity - DeepSeek - Kimi - Gemini - Claude - Grok.

The winner for this specific query:
ChatGPT (actually $300), Kimi (most reviews), Grok (best overall).

4. YouTube search + synthesis

“Find the 5 most authoritative YouTube videos to learn "How to write a thesis with AI". For each: channel, publish date, why it’s credible, and exact timestamp for the most valuable 2 minutes.”

Results for each AI: ChatGPT - Perplexity - DeepSeek - Kimi - Gemini - Claude - Grok.

The winner for this specific query: Perplexity. It's so good for YouTube.

5. Academic papers to practice

"List the 7 most cited papers since 2021 on "Prompt Engineering to avoid hallucinations". Provide BibTeX, open-access/preprint links, and a 2-line takeaway per paper."

Results for each AI: ChatGPT - Perplexity - DeepSeek - Kimi - Gemini - Claude - Grok.

The winner for this specific query: No winner, they were all equally good. Maybe Perplexity?

6. Reddit pain-points mining

"Extract the top 10 user pain points about [PRODUCT/CATEGORY] from Reddit posts since 2024-01-01. Quote snippets, link threads, and group into themes."

Results for each AI: ChatGPT - Perplexity - DeepSeek - Kimi - Gemini - Claude - Grok.

The winner for this specific query: Perplexity and Grok are best.

7. Regulation lookup

"What are the live requirements for [LICENSE/PERMIT] in [JURISDICTION]? Provide controlling statutes, last update date, fees, and application links."

Results for each AI: ChatGPT - Perplexity - DeepSeek - Kimi - Gemini - Claude - Grok.

The winner for this specific query: Perplexity literally gave me the paper to fill, and to where.

8. B2B market size sanity check

"Estimate 2026 TAM/SAM/SOM for [NICHE]. Show 3 independent sources, your triangulation math, and explicit assumptions."

Results for each AI: ChatGPT - Perplexity - DeepSeek - Kimi - Gemini - Claude - Grok.

The winner for this specific query: Both Claude & Grok are the best. Slight edge for Claude.

9. Travel with constraints

“Design a 3-day plan for [Koh Phangan] given [CONSTRAINTS: Remove worker, eat high-quality beef + $2000/month + walking only]. Include booking links, opening hours, and transit time estimates.”

Results: ChatGPT - Perplexity - DeepSeek - Kimi - Gemini (bugged) - Claude - Grok.

The winner for this specific query:
DeepSeek made a diagram. ChatGPT was the most precise.
